

PHOTO FINISH – School Shade Sails

Utilizing existing walls for anchor points saved money

Children at school need protection from the elements while waiting for the carpool lines so we created a simple yet elegant solution.

Any color, shape or size.

Tensile Structure Systems is a boutique firm specializing in the design of custom tensile fabric structures, roof systems and shade sails. Whether it be a sports facility, amphitheater or transportation hub we are dedicated to providing the highest quality, cost effective products with a customer service experience second to none. This is our commitment. This is our mission.
